

TECHNICAL DATA SHEET

1. TRADE NAME: DROSATRAP

Drosatrap is the trap for monitoring and trapping of *Drosophila suzukii* (spotted wing Drosophila). Monitoring device that must be applied to detect regularly the pests' presence in a specific agricultural environment for a defined time.

2. PRODUCT CODE: P-25020INFT

3. PICTURE:

4. TECHNICAL SPECIFICATIONS:

Drosatrap is a trap for monitoring and mass trapping *Drosophila suzukii*. The design makes it a selective trap and prevents the capture of other insects, including beneficial insects such as bees.

Content:

2 traps: each trap is constituted of a collecting jar, a transparent cover and a hook.

Colour: As in the picture

InFarm PHERO LINE ISAGRO products could undergo necessary or opportune technical changes, at any given time, without prior written notice to customers.

5. HOW TO USE:

The trap is to be used together with the liquid attractant DROSALIQUID (P-25020INF), to be poured inside the trap body.

We recommend placing 10-20 traps per hectare filled with 200 ml of attractant liquid, making sure to position them at a height of 1 – 1,5 m.

We suggest you to give a number to each trap and indicate its placement in the monitored area plan, in order to facilitate the check during the periodic monitoring.

Suggested monitoring period: between April and September, depending on the temperature and the presence of insects.

TECHNICAL DATA SHEET

Suggested frequency of the controls: weekly, refill the liquid every two weeks or when necessary. The attractiveness lasts from 3 to 6 weeks, according to the environmental conditions. Check the traps regularly and remove insects inside the liquid for a longer duration of the product over time.

Product shelf-life: From 3 to 6 weeks, depending on environmental conditions. In order to extend the life of the liquid in the field, it is recommended to check the traps regularly and eliminate the insects present inside the liquid itself.

Storage conditions: in a cool and dry room, temperature below 25°C and R.H. below 55%.
For the liquid attractant only: in optimal storage conditions and in the package the product lasts 18 months.

6. PACKAGING AND SPARE PARTS:

- Packaging: 2 traps

Liquid attractant DROSALIQUID (P-25020INF) sold separately.

7. DISPOSAL CONSIDERATIONS:

Waste disposal should be in accordance with existing Community, National and local regulations.
